

**: Free time** وقت الفراغ

On school days I don't get long free time because of too much homework I have to do. I usually get two free hours every day. Then I can do what I like. I think that watching T.V programmes is more interesting than watching video films. In my opinion, I think reading magazine is enjoyable and it's boring to read books and newspaper. I like to spend my holiday with my family; we usually go together to shopping center and some times to the cinema. On weekend, I prefer to visit my friend and spend lovely time with her in her house.

**: Wild life** الحياه في البريه

Whales are found in most seas, but all the large species of whales are in danger of becoming extinct. Although whales are protected by the international agreement, they are hunted by the whaling countries Japan, Norway and others for their oil and whale's oil and musk, pet food and fertilizers. How caught whales are cashed by fast catcher boats then are killed with weapons, guns. After that they are taken to factory ships. Finally they are cut up and turned in to oil.

### **: Responsibilities at home** المسؤوليات في المنزل

Every person in this world has lots of responsibilities to do and I am one of them. For example I have to look after my little sister and help my younger sister with her homework. I also have to give my father the shopping list and I have to do lots of homework. Some times I have to help my mother with \*\*\*\*\*ng and shopping but I don't have to wash the dishes or to clean the garden. In my opinion I think it's good to have responsibilities because this will help me in future when I have my own houses and kids.\\ I don't always fulfill my responsibilities because I sometime have lots of homework to do. When this happens my mother shouts at me.

## شخص يدرس ويعمل

Hani is a student in Ahmed Alomran secondary school. He is sixteen years old. He has a part-time job in a supermarket. He is a cashier. He works for eight hours a day after he finishes school. He earns money, which he needs to help his family.

The problem he faces is that he gets tired every day after he finishes his work. He doesn't have enough time to do his homework. He gets lower marks in his exams. He finds it difficult to combine between job and school. He usually studies at work. He misses his friends and the school activities.

Hani wants to work as a doctor in the future. He works because he needs the money at the moment. Most of his money goes to his family but he uses some to buy clothes and CDs. I think that he is successful. His work gives him self respect.

## Rubbish in school العنوان: القمامة

In Bahrain, as in most countries in the world. People care little about waste, pollution and ruining the environment. They usually get rid of their rubbish everywhere. Is it the same inside schools? Unfortunately the answer is yes. First of all, we should know the ingredients of the rubbish in school waste paper used books and not books, use less pens left-over food, empty soft drinks cans and plastic bags are common waste in our school. Even though the school

provides trashcans, most students end net to use them regularly. The result is that waste can be seen all over the places inside the school.

Now the important question is whether rubbish is separated for recycling. The answer is yes and no while soft drinks cans are collected by school workers for recycling, waste paper is after collected be throw away. Last but not least, I've lived that recycling the soft drinks can is apposite pveca dure, but recycling the school waste paper can be very profitable, as well. In addition, I advise students use the trash cans and keep our school and healthy.

### رحلة موسفة

Last weekend we decided to go an a picnic. I went with my friends we started to collect the money to buy the food and the drinks; we went there by one my friends' car. We started our journey early in the morning. The trip took half an hour. We arrived there at nine o'clock.

Suddenly the weather over turned. The sky turned dark, a storm blew and heavy rain poured. We couldn't get out of our room. We spent most of the day placing cards, watching T.V and listening to the songs. In the evening we collected our belonging and drove back to the city.

We arrived to the city. Every one went to his house. We were so un happy because we couldn't swim or play on the beach. I hope that weather will be fine next time. We arranged to have another picnic next month.
